DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The Examiner is relying upon Applicant's arguments and evidence for the patentability of the instant claims, specifically Applicant's argument that propylene glycol monobutyl ether, dipropylene glycol monobutyl ether, and tripropylene glycol monobutyl ether are not equivalent and that superior results (as shown by the tables) are achieved even when the polypropylene glycol n-butyl ether are present in small amount was found persuasive. Therefore the rejection of the claims has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
